FEDERAL ENERGY REGULATORY COMMISSION**

Capital Availability for Energy Markets

Docket No. AD03-3-000

**REVISED NOTICE OF TECHNICAL CONFERENCE  
AND ANNOUNCEMENT OF TIME CHANGE<sup>1</sup>**

(January 14, 2003)

As announced on December 20, 2002, the Federal Energy Regulatory Commission (FERC) is holding a technical conference on capital availability for energy markets. The conference is scheduled for Thursday, January 16, 2003, at FERC Headquarters, 888 First Street, NE, Washington, D.C., in the Commission Meeting Room (Room 2C).

This conference will explore the status of capital available for energy market needs including infrastructure. Speakers include representatives of investment banks, commercial banks, insurance companies, hedge funds, credit rating agencies and other similar institutions as well as market participants and customers. In addition to FERC, representatives of other relevant agencies will attend.

This one-day conference will begin at 9:30 a.m. (not 8:30 a.m. as previously announced) and will conclude at 4:30 p.m. All interested parties are invited to attend. There is no registration fee.

The vision of FERC is dependable, affordable energy through competitive markets. Current conditions in energy markets are causing concern due to questions of capital availability, credit-worthiness of market participants, and market uncertainty. In holding this conference, FERC will be looking forward to an informative discussion on what problems exist and what their potential solutions are, along with what actions can be taken by FERC.

Capitol Connection will cover this meeting live over the Internet, as well as via telephone and satellite. For a fee, you can receive these meetings in your office, at home, or anywhere in the world. To find out more about Capitol Connection's live Internet, phone bridge, or satellite coverage, contact David Reininger or Julia Morelli at (703) 993-3100, or visit [www.capitolconnection.gmu.edu](http://www.capitolconnection.gmu.edu).
